What is CapTel®? Ideal for people with hearing loss, the CapTel® Captioned Telephone works like any other phone with one important addition: *It shows captions of everything the caller says.* You can listen to the caller and also read captions of what they say in the CapTel display screen. All CapTel phones include a large screen display, adjustable font sizes and colors, and a built-in answering machine that shows captions of your messages. Additional options available.

No-Cost Phone, Service at no cost to the user! The phone is available at no cost with a signed certification from a professional qualified to evaluate hearing loss, such as your audiologist or doctor. CapTel service is provided at no cost to the user through a fund set up by the FCC exclusively for people with hearing loss. Requirements include a dial tone, high-speed internet and electricity.
