

## **Reminders for Off Campus Visitation**

Residents who leave the facility for off campus visitation or appointments should remember to follow all recommended infection control practices. Those in contact with the resident should also follow these same practices.

### ***Infection Control Practices:***

- Proper hand washing or use of alcohol-based hand sanitizer
- Practice social distancing
- Avoid large groups
- Wear a mask except when eating or drinking

Please alert facility staff as soon as possible if you learn that you have been in close contact with someone who has COVID-19 or is being tested for it. Even though you may have been vaccinated, you can still be a carrier of the infection and pass it along to others.
